DAILY PITTSBURGH GAZETTE.

THURSDAY AFTERNOON, DECEMBER 5, 1833

FOREIGN NEWS.—The intelligence from Spain is of an interesting character—the insurrection, in favor of Don Carlos, seems to assume a more formidable aspect.—That kingdom seems doomed to another serious civil war, unless France should promptly interfere in favor of the young Queen. It must, however, be recollected, that all these accounts, in times of great excitement, must be received with much allowance—partisans will exaggerate their own strength and successes.

PRESIDENT'S MESSAGE.—We hope to place this anxiously expected document before our daily readers to morrow morning, and before our weekly subscribers in the afternoon.

CHESAPEAKE AND OHIO CANAL.—We publish, to day, the proceedings of the meeting held in the Court House, yesterday. The memorial which was adopted has been printed, and the committees will attend to taking signatures.—As it is highly desirable that the application to Congress should be as imposing as possible, it is hoped that persons who are not waited on will call upon some one of the committees.

Persons in the country, who are favorable to this great improvement, and who are disposed to take some trouble in procuring signatures, will be supplied with copies of the memorial, upon application to any member of the last named committee.

We would ask the citizens of those counties of Pennsylvania, along the Allegheny river, whether they have not a deep interest in the execution of this great work. If a canal shall be once completed, to connect the seat of the General Government with Pittsburgh, will not any application for the improvement of the Allegheny be placed upon much stronger grounds than at present?

The same question may be put to every person interested in the improvement of the Ohio river. Will not, then, our fellow citizens along those rivers put their shoulders to the wheel and aid us in pressing our application for aid?—It seems, to our mind, that they have a direct and manifest common interest in this matter. We hope they will think about it.

CANAL MEETING.

At a large and respectable Meeting of the citizens of Pittsburgh and Allegheny county, held at the Court House, for the purpose of memorializing Congress for aid in the prosecution of the Chesapeake and Ohio Canal, to its intended termination, at Pittsburgh, Mr. CHARLES AVERY was called to the Chair, and WM. G. HAWKINS and WALTER H. LOWRIE, were appointed Secretaries.

The object of the meeting having been stated by the Chairman, Neville B. Craig, George Cochran, of R'd, John B. Butler, A. W. Foster, and Patrick Mulvany, were, on motion, appointed a committee to prepare a memorial and resolutions, expressive of the wishes of the citizens of this county.

The committee, having retired for a few moments, returned, and presented the following resolutions and memorial, which were adopted—the blanks for the names of committees having been filled by the meeting.

Resolved, That the citizens of Pittsburgh and of Allegheny county, view, with much satisfaction, the exertions making in the neighboring counties of Westmoreland, Fayette, Green, and Washington, with a view to procure aid from the general government for the commencement of the western section of the Chesapeake and Ohio Canal—believing the same to be a truly national work, connecting, as it will, the seat of the Legislature of this great nation with the immense valley of the Mississippi.

Resolved, That this meeting do adopt, as the act of this meeting, the following memorial, which was prepared by a committee appointed by a previous meeting of our fellow citizens, held on the 26th of August last, and direct that two hundred copies of the same be printed.

[*We published this memorial in our paper of the thirtieth of August, and consider it unnecessary, to republish it, as it is now in the hands of committees, circulating for signatures.*]

Resolved, That the following persons, viz:

NORTH WARD—N. B. Craig, W. G. Hawkins.

SOUTH WARD—William Graham, Patrick Mulvany.

EAST WARD—Thomas Fairman, S. Frew.

WEST WARD—John D. Davis, J. M'Faden.

ALLEGHENY BOROUGH—John Morrison, John Tassey.

BIRMINGHAM—Dr. Frederick Bausman, James Patterson, jr.

NORTHERN LIBERTIES—Jas. Blakely, Esq., John Shoenberger.

LAWRENCEVILLE—Alba Fisk, Esq., Jno. Sarber, Esq.—be committees to procure signatures to said memorials, and to forward them to our representatives in Congress.

Resolved, That John B. Butler, Neville B. Craig, David Lynch, Richard Biddle, Alex. W. Foster, and Samuel Church, Esqs., be a committee to distribute copies of the memorial through the body of the county.

On motion,

Resolved, That all the editors of papers, in this county, and all other editors friendly to the object be and are hereby requested to publish the proceedings of this meeting, together with the memorial.

CHARLES AVERY, *Chairman*.

It is stated in the United States Gazette that a "run" has been made on the Branch Bank of the United States at Savannah, for the sum of $350,000. That amount of specie was immediately paid, and much still remained in the vaults, against which other expedients are tried. NEWS BY THIS MORNING'S MAIL!!

From the New York Commercial Advertiser.

LATER FROM EUROPE.

By the arrival of the packet ship Rhone, Capt. Rocket, from Havre, we are in possession of Paris papers to the 22d of October, and intelligence from Madrid several days later than before received.—Little is added in our stock of information by this arrival—and that little principally relates to the affairs of Spain.

France continued in a state of repose, having little to disturb her quiet, or even to awake her vivacity, except the continual prosecutions of the opposition presses, which was still carried on with unabated rigor. The government had obtained some further judgments against them.

A Royal Ordinance has been promulgated, calling into active service 35,000 new conscripts.—This measure has excited much speculation, although the reason assigned by the Minister of War would seem to be a very satisfactory one, viz: to supply the vacancies to be created by the anticipated discharge of the class of 1825, and by the delivery of unlimited furloughs to other parts of the army.

General Drummont, who was in America with Count Roachfort, in the capacity of aid de camp, died a short time since at Lyons.

The Queen Regent of Spain, continued at the last accounts to maintain her authority, although it cannot be expected, from the known restless disposition of the Apostolicals, that her sway will remain undisturbed. Don Carlos and his partisans have not only personal ambition to gratify, but the malignity of an aspiring priesthood to indulge. Don Carlos has, moreover, the advantage of manhood, as opposed to infancy—and the laws of the kingdom to sustain him, except so far as they were repealed expressly for his exclusion.—If, therefore, he is possessed of talents, he will at least give trouble to the Relict of Ferdinand, and not unlikely ultimately ascend the throne of his brother.

Very serious troubles prevail in the kingdom of Navarre, where Don Carlos has a large party in action.

PARIS, Oct. 22.—The news from Bordeaux, of the 20th, arrived to day by an extraordinary Courier, mention as follows:

No dependence should be placed on the calm which apparently prevails in Navarre, and we believe that Province, more than any other part of the kingdom, requires the attention of Government. In this view of the case, the execution of Santos Ladron was probably required by sound policy. He arrived at Pampeluna on the 13th, and it is certain that he was shot on the day following.

The mail carrier from Detrogat, arrived yesterday afternoon, had met troops stationed at Burgos, and the insurrection had extended to Quinham Palla, only some leagues distant. In this case, there probably was a battle to day; perhaps even yesterday.

We learn, by the way of Saint Sebastien, that General Castro Terregno, commandant of Old Castile, had marched on Merando, where the rebels appeared determined to make a stand. This General had with him 2,000 men, all old soldiers, and a good many volunteers. They are to form a junction with the regiments coming by forced marches from Madrid, and the arrival of which at Burgos is already known.

A courier, from Madrid, left on the road, at Toloso, a Gazette extraordinary of the 12th, containing two decrees, which outlawed the Marquis of Valde Epina, the Brigadier Zabala, Verastegny, Arias, chief of the insurrection at Bilboa, Vittoria, and Lagrono.

The following is the news contained in the Bordeaux papers of the 19th of October.

SAINT-JEAN-PIED-DE-PORT, 16th October.—The rising in Navarre is general; every where the people have risen in arms at the call of the priests, and paid with the gold of the convents. The insurgents have marched on Valcarlos, where the insurrection spread rapidly, for these mountaineers had previously been required by the priests to range themselves under the banner of Charles V.

PARIS, October 22.—The Spanish question has made some progress, not diplomatically, which, as times go, would signify but little, but morally, if I may so express myself.

THE KING OF SPAIN.—Ferdinand VII. was born at San Lorenzo, on the 14th of October, 1784, and succeeded to the crown of Spain, by the death of his father, on the 19th of March, 1808. His Majesty had four consorts,—by the first three he had no issue. He was first married to Maria Antoinnette Therese, daughter of Ferdinand VI., King of the Two Sicilies, who died on the 21st of May, 1806; secondly, to Isabella Maria Francesca, daughter of John VI., King of Portugal, who died on the 26th December, 1818; thirdly, to Maria Josepha Amelia, daughter of Maximilian, brother of Anthony, King of Saxony, who died on the 17th of May, 1829; and fourthly, to Maria Christina, daughter of Francis, late King of the Two Sicilies, who was born on the 28th of April, 1806, and survives the King. His Majesty has left issue only two daughters, Maria Isabella Louisa, now Queen of Spain, born October 10, 1830, and Maria Louisa Ferdinanda, born January 30, 1832.—King Ferdinand has also surviving him two brothers and one sister—namely, Don Carlos, born March 29, 1788, married September 29, 1816, to Maria Francesca d'Assiza, Infanta of Portugal, by whom he has three sons; Don Francisco de Paulo, born March 10, 1794, and married June 12, 1819, to Louisa Charlotte, Princess of the Two Sicilies, by whom he has three sons and three daughters; and Maria Isabella, born July 6, 1789, who became the second consort of the late King Francis, of Naples, by whom she had five sons and six daughters.

Ferdinand, King of Naples, has issued a formal protest against the acknowledgment of the young Queen Isabella, which has been communicated to the Spanish government. He adverts to the pragmatic sanction promulgated by Philip V., on the 20th of March, 1713, by which the Salic Law was recognized as a fundamental principle in the Spanish succession, and such an one as ought not now to be disturbed, at the hazard of kindling up a civil war.

PARIS, Oct. 22.—A letter received by a banker at Paris, from the camp of Don Miguel positively states that the dismission of M. de Bourmont, from the post of generalissimo of the Portuguese army, is entirely owing to the sus icions which had taken root in the mind of Don Miguel, in consequence of the negotiations which had taken place between Bourmont and Lord W. Russell—Don Miguel no doubt recollected that Bourmont had been a traitor to his own country, and that he might therefore also prove a traitor to him.

GREECE.—The following extract of a letter from Navarino, dated 30th of Sept. presents a very different picture of the result of King Otho's government from that we had previously received

"The discontent excited against the measures of King Otho is daily increasing. He has chosen to fill the Consulates of Europe with men of notorious incapability, and the internal administration of the country has fallen into the hands of rapacious and insolent foreigners. Otho has overthrown his Ministry, and every thing prognosticates a revolution. Prince Karadja is at present in Athens, and his son in law George Argiropoulo, remains at Nauplia. It is said that the latter is to have the office of Minister."

TURKEY.

The Captain of the ship Atalanta, who arrived at Marseilles on the 10th of October from Constantinople, which he left on the 19th September, relates, that at the time of his departure, two cut down ships of the line and two frigates, which the Sultan had solicited of Russia, were expected in the Turkish capital.

The Sultan's eldest daughter, Salyha, about 22 years old, is about to be married to Halil Pacha, formerly a slave, but one of the imperial favorites. Great preparations were making for the event.

ENGLAND.

The quarters revenue for the three months, ending on the 10th of October, exhibits a decrease in the British revenue of more than £250,000, as compared with the corresponding quarter of the last year. This result is said to be mainly attributable to the reduced importation of corn. The annual amount of taxes repealed since the session of 1831 has been £3,330,000.

ONE DAY LATER.

By the packet ship Utica, Captain Depeyster, we have the Paris papers to the 23d of October, inclusive, and Havre of the 24th. The following is from the Gazette de France of 23d Oct.

News arrived at Paris to day which is entitled to credit. A letter from Fontarabia announces that the Kingdom of Navarre is in complete revolt, and that the same state of things exists in both of the Astunees.

In Biscay the insurrection is complete—the number of armed volunteers is supposed to amount to 25,000 men. This news is brought by passengers coming from Bilboa by sea. Estelle and Alava have risen. St. Sebastian and Tolos, where there were some troops held out for the Queen. But from Mirada to Bayonne every body is for Don Carlos. The communications are entirely interrupted.

It is admitted by liberals, constitutionalists, and the Queen's partisans, that Don Carlos must triumph, if the Queen is not assisted by France.

Barcelona and the whole province is quiet; it offered the government to equip and pay 6,000 men, to protect the town, and maintain order in the district.

The capital is tranquil, as well as all Castile.

The Minister of Marine has issued a circular, addressed to the Maritime Prefects, announcing that the British Government had rescinded the authority previously given to their vessels, cruising in the West India seas, for the prevention of piracy, authorizing them to bring to any vessel, without respect to flag.

The Prussian Government has given its sanction to the formation of a Rail Road from Berlin to Potsdam.

THE CHOLERA.—The cholera having appeared at Dramen, Norway, the Royal Board of Stockholm has declared that town as infected, and as suspected, all the ports from Langesard to Swinesard, the coast between those places, as well as the land for one Norwegian mile from the coast. The Board has likewise declared the town of Zwolla, in the Dutch province of Overyssel, infected, and as suspected, all the harbors in that province, as well as all harbors in the province of Guelderland.

FROM MEXICO—FOUR DAYS LATER.

By the Avis, Captain Collins, we are supplied with intelligence from the city of Mexico, to the 2d, and from Vera Cruz to the 5th inst.

The entire overthrow of the insurgent party is officially announced, and the restoration of tranquillity placed upon a footing that promises to be permanent. The government troops had obtained a victory, under the command of Col. Woll, over the forces of Garcia, one of the rebel chieftains, and the few hostile troops that remain have fled to Guatemala, under the command of Canazilo.

The President, Santa Anna, had asked leave of absence for a few months from his Executive duties, but the Congress, not thinking proper to comply with it, he had resumed them. He entered the city on the 27th of October.

MEXICO, Oct. 28.

We yesterday published an extract from the law by which all civil obligation for the payment of ecclesiastical tithes, is made to cease, through the Republic. Light is already sufficiently diffused among the people, to convince them of the necessity, propriety, and religiousness even, of this law.

OCTOBER 30.

To day, the following decree, issued by the General Congress, has been communicated to the Executive:

"Those civil laws which impose any kind of coercion, direct or indirect, for the performance of monastic vows, are hereby repealed."

On thus throwing open the convents and releasing the inmates from the observance of their monastic vows, great numbers of the nuns availed themselves of the privilege granted.

On the 28th, the law repealing the 11th article of the law passed on the 6th of April, 1830, which had passed the House of Representatives and was suspended in the Senate, in a somewhat doubtful attitude, was reconsidered and passed the Senate unanimously.

The law for the admission of North Americans in Texas is now complete, and a law authorizing foreigners to hold real estate throughout the Republic will doubtless soon pass. Since the President has resumed his office, his time has been occupied by the great questions of the amnesty and the clergy. It has been decided to banish the obnoxious, and to limit the executions to a small number—perhaps, ultimately, none.

The Congress have declared the Pope without authority in Mexico. A number of regiments, and indeed all the corps that have been engaged in the rebellion, against the government, are struck from the army list with the following emphatic note:—Let them cease to exist, for having risen against the Federal Constitution.

The President, on entering the city with his gallant division, brought with him the greater part of the prisoners taken at Ganaxto. Deputations from the States, and a Committee of the Senate, waited upon him to express their congratulations.

From an English paper, received by ship Roscoe.

CAPT. BACK'S EXPEDITION.—The following letter has been received from Capt. Back, (being the first time since he left Montreal, where he may be said to have commenced his undertaking,) and is now published for the information of the numerour friends, and subscribers to this expedition.

"*Norway house, Jack River, June* 19, 1833.

"My dear M.,—I wrote to you last (I think) from Montreal; since which I am happy to inform you my progress has been unimpeded by accident, though attended with more expense than it was possible to foresee. On arriving at the Sault St. Marie, (I love the name,) which we effected ten days earlier than the light canoe of the last season, we were informed that there was such a deficiency of provisions in the Indian country that it would be necessary to take a supply at once as far as Lake Winnepeg. This obliged me to purchase another canoe, to get across Lake Superior, and from that establishment I received the two north canoes prepared for the expedition by the Company.

"We arrived at Fort Alexander on the 6th of June, which, for heavy canoes, is considered as being remarkably quick, the despatch canoe from Montreal having only got there one day earlier. The letters that you and I saw at the Hudson's Bay House, in December last, together with others of mine to Governor Simpson, were in that canoe, and consequently but a short time before me. I had thus to apprehend that the arrangements relating to the expedition could not have been completed from the want of the necessary information; and therefore the importance of seeing the Governor myself was evident, and on the 10th of June, I had the pleasure at Fort Alexander. I then heard that the supplies were nearly all at Cumberland house: but, as we could not by any exertion procure the men required for the expedition at Montreal, it was necessary for me to come to this port to complete their number. And now I am sorry to say we are obliged to pay very high wages; besides which, I have lost full 300 miles by this dely, unavoidable in itself.

"It is the opinion of the senior gentlemen here, then, that the only method we can adopt to get my two large heavy boats to a wintering ground, is for me to go in a light canoe myself, and find out the exact situation and the best rout to Thioceccho, which I hope to do by the time the boats arrive at Athabasca, where there shall be a guide to conduct them to me. Now, my dear friend, though I must do this to ensure my operations next year, yet it will swell our expenses to more than I had contemplated, and you cannot conceive how feverish I am at the thought of getting beyond the £7,000, for it is certain this sum will scarcely carry us to the three years, whereas an additional £1,000, would be amply sufficient. Pray see, then, what can be done, and make me quiet about this.

"I am now in the midst of bustle and annoyance—hiring and persuading men to go. I shall write again by the ship. On this occasion you are the only person in England to whom I propose writing; therefore make my kind regards to all my friends, and especially to those who have been active, and are interested in our good cause.

Yours ever,

"GEORGE BACK."

THE HALL OF REPRESENTATIVES.

The alterations and improvements which, at the last session of Congress, were ordered to be made, in the Hall of Representatives, according to Mr. Mills' plan, have been all completed, and the house this day will be able to feel their efficacy. It will be remembered that continual complaints have been made, ever since the first occupancy of the Hall, of the difficulty of speaking and hearing experienced by the members. The repeated efforts made to devise some means of remedying the defect, without success, and the apparent hopelessness of the case, until the period when the plan just carried into execution was proposed to the consideration of Congress, are circumstances which have been frequently mentioned.

The experiments which have been made by the architect and others, under the most unfavorable circumstances, to test the capacity of the room to convey the voice distinct and clear, have, we understand, proved satisfactory, and in perfect harmony with the principles of sound advocated by the architect, in recommending the plan.

The alterations made from the original plan of the Hall, consists—1st. In rearing and vaulting the floor so as to be on a level with the foot of the columns, instead of being, as before, sunk four feet below it. 2dly. In constructing a circular wall behind the colonnade in the galleries, in place of a broken line of wall which formerly was there.—3dly. In constructing a Gallery for the Ladies on the South side of the Hall, and opening all the attic windows in that direction, which before were closed up. 4thly. In constructing a new rostrum for the Speaker and Clerk, upon a more ample and convenient plan, affording two additional desks, one for the Seargeant at Arms, and one for the Speaker when the House is in Committee of the Whole. 5thly. In reversing the order of the desks and the Speaker's chair, so that the House now fronts the circular colonnade or the galleries, instead of having them behind. 6thly. In making a new arrangement of the Post Office of the House, so that every member will have his letter box and number. 7thly. In removing the Document and Folding Room, with the Clerk's Library from the level of the floor of the Hall, and occupying their space with two private lobbies, for the use of the members. 8thly. In affording much more ample room for the deposit of documents and books than existed before. 9thly. In altering the seats and entrance to the public galleries, so as to make them more comfortable.—10thly. In making two additional entrances into the Hall. 11thly. In introducing a better mode of warming the room, by constituting the vaults below the floor reservoirs of heat—and causing it to rise out of the floor. 12thly. Providing accommodations for the Reporters to the House, where they will be less interrupted, and, it is supposed, have a better command of the House. 13thly. Making all the aisles inclined planes, instead of breaking them into steps, which occasioned frequent stumbling.—*Nat. Intel.*

The Pope is menacing Don Pedro with Bulls and encyclical letters. His Holiness, in the last council he held, complained at great length of the attacks made by Don Pedro on the church, and menaced him with his spiritual weapons.—After complaining of the dismission from Portugal, of his representative, in the character of apostolic Nuncio, and drawing a picture of the injuries inflicted on religion in Portugal, he concludes:—

" It is for these reasons, holy fathers, that we expressly proclaim that we positively disapprove of all the decrees issued by the said government of Lisbon, to the great detriment of the church, of its holy ministers, of the ecclesiastical rights, and the prerogatives of the Holy See, we declare them entirely null, of no value, and, in expressing our serious displeasure at the audacious measures which have been reported to us, we declare that we are ready, as the duties of our station enjoin on us, *to oppose ourselves as a wall for the House of Israel, and to present ourselves to the combat in the name of the Lord*, whenever the welfare of religion and the gravity of circumstances require it. And further, this cause, which is that of God, we leave it in the hands of God."

We publish, in another part of the paper, this morning, some tabular statements touching the income from the State Improvements, as such *exhibits* can only have relation to that part of the means of internal trade, which has been prepared at the expense of the state; it follows, of course, that the returns necessarily exhibit only a partial view of what is done in Pennsylvania. The following estimate may be regarded as a nearer approximation of the incomes for the Canals and Rail Roads in Pennsylvania, for the present year.

Lehigh Canal, - -	$100,000 00
Union Canal, - - -	110,000 00
Schuylkill Canal, - -	300,000 00
State Canal, - - -	190,000 00
Lackawanna Rail Road and Canal (in this state,) - -	50,000 00
	$750,000 00

Columbia Rail Road and the Germantown Rail Road, have been chiefly used for the conveyance of passengers. We however may venture to predict, that, in a few years, the receipts for freight, on the improvements in this state, will considerably exceed *one million of dollars*.

Pennsylvania has now a greater amount of Turnpikes, Railroads, and Canals, than any other state in the Union.—*U. S. Gazette, Dec.* 2.

☞The following queries, from the Star, of last evening, are intended no doubt to carry with them the force of averment. We have reason to believe that they may all be correctly and truly answered in the affirmative. The balance due from the U. States Bank is said to be reduced to the sum of twelve hundred thousand dollars.—*N. Y. Com. Adv.*

Is it true that the Bank of America has returned the check for $500,000 it held, and was this of their own accord, or on compulsion? Can you guess the why or the wherefor?

Is it true that Mr. Secretary Woodbury gave, in writing, his opinion against the removal of the deposits, and then changed his views on the subject?

Is it true that the Governor of Virginia denounces the removal, and that this state will come out unanimously against this high handed measure?

Is it true that the government deposits in the Bank of the United States and all its branches, *are now less than the actual amount of specie in our Wall street Branch?*

This day, at 12 o'clock, will open the First Session of the twenty third Congress. A quorum of both Houses will doubtless be in attendance. In the Houses of Representatives the first business will be the swearing in of the Members; or, as it is usually termed, qualifying them. The next, the election of Speaker of the House. After which comes on the election of Clerk of the House.—These appointments being made, the House will have been so far organized as to be able to exchange messages with the Senate, &c. and to receive communications from the Executive. In the Senate, the new members only will be sworn in; the new Vice President, if present, will probably address the Senate on taking the Chair, for the first time, as its presiding officer. After which, that body will be obliged, we suppose, to wait until the organization of the House shall be complete. It is seldom that this is not effected on the first day of the Session; though it has, once or twice, heretofore, happened otherwise.—*Nat. Intel. December* 2.

Extracts from the Philadelphia Market, ending Saturday evening, November 30, 1833.

COTTON—Arrived since our last report, 40 bales from Washington, N. C.; 11 do. from New Orleans; 288 do. from Charleston, and 431 do. from Savannah. Total 770 bales. The following sales have been reported—216 bales Georgia Uplands, old and new, at 14 1-4 a 16 cts.; 50 bales prime Virginia at 15 1-4 cts., and 41 bales do. at 15 cts.; a small parcel of Carolina at 13 a 13 1-4 cts., and a lot of damaged do. at 7 1-2 a 9 1-2 cts., all on 4 mths. cr.; advices per the Utica, from Havre, at New York, to the 24th October. That market is in a state of uncertainty, and it is an impossibility to give correct quotations, as no regular transactions had taken place, the sales being very light.

COFFEE—The transactions which have come to our knowledge during the week, are 850 bags Rio coffee at 12 a 12 3-4 cts., 4 and 6 mths.; 500 bags do. at prices not reported; 100 bags Laguira at 12 3-4 cts., 4 mths., and 400 bags Cuba at 12 1-2 cts., 4 mths.

FISH—Considerable quantities of mackerel have been received during the week, and a reduction of 1-8 of a dollar has been submited to. Extensive sales of No. 1 have been made at $6 50, and No. 2 at $5 50. But little more is expected to arrive, and holders show a desire to hold for an advance on last sales.

FLOUR AND MEAL.—The sales of superfine flour throughout the week have been very limited, and as far as ascertained, do not exceed 2,000 barrels for export. In the beginning of the week a sale of about 600 bls. was made at $6 70; subsequently several parcels in smaller lots were taken at the 3-4, and on Thursday 700 bls. was sold at the same price; but on Saturday several of the factors offered it freely at $5 5-8, but no sales were reported, we quoted it however at $5 62½; we also learn that about 2,000 bls. *extra* flour is being shipped to South America, but the terms of sale have not transpired; 100 bls. of scraped flour was sold at $5 50. Rye flour has also declined, the last sales having been at $3 62 1-2; corn meal is exceedingly dull; a lot of barrels was sold in the middle of the week at $3 25, and on Saturday 100 bls. at $3 20, and on same day a small lot of hhds. at $13 50.

SEEDS.—Clover seed has been taken at $5 3-8 a $5 50 for selections from 1st qualities; Flaxseed has been more enquired after, and considerable quantities have been taken at $1 61 a $1 62 for Southern, and several parcels of Pennsylvania at $1 65; large parcels were also sold on the *Schuylkill* side at the same price.

SUGARS—The sales have been confined to small parcels of N. Orleans, brls., at 6 1-4 cts., 4 mths; a parcel of brown Havana at 8 1-2 cts., and another parcel of 100 boxes of do. at 8 1-4, 6 mths., and St Croix at 8 cts., 4 mths.

TOBACCO—40 bales seed leaf tobacco was sold at auction at 6 cts., and 10 hhds. Kentucky do. at 7 1-2 cts., on time. The stock of tobacco in first hands is very much reduced, and the sales are principally confined to consumers.

TEAS—The lot of teas offered by auction, on Friday, not bringing the price required, the sale was stopped.

WOOL—A sale of 14 bags Western unwashed wool at 25 1-2 cts., 6 mths; several parcels of pulled and fleece wool has been taken at our highest quotations.

Gentlemen of our city who are well acquainted with Mr. King, the new Senator of Georgia, place full reliance on the independence of his spirit, as well as the vigor of his intellect. He is a lawyer of high reputation.—*Nat. Gaz.*

FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

Nov. 8, 1833. MOSES ATWOOD.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
other lots, containing about			6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county---and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others--- a soil rich and productive---the neighborhood abounding in coal---well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S

☞*WELCH MEDICAMENTUM.*☜

FOR the cure of Dyspepsia, Liver Complaints Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

UTICA, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving t emporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east. at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention. state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.
